

# KASEY R. KASPER, CISSP

Denver, CO • kaseykasper13@gmail.com • [LinkedIn](#) • Active TS/SCI  
Information Systems Security Manager / Engineer | RMF | DoD Cleared

## PROFESSIONAL SUMMARY

---

Results-driven cybersecurity professional with 4+ years of experience securing classified government and defense systems across the full RMF lifecycle. Proven expertise in CMMC 2.0 compliance, A&A documentation, STIGs, continuous monitoring, and SSP/POA&M development. Holds an active TS/SCI clearance and CISSP certification. U.S. Navy veteran known for precision under pressure, cross-functional collaboration, and delivering security outcomes that protect mission-critical operations.

## CORE COMPETENCIES

---

RMF / A&A Lifecycle • CMMC 2.0 Compliance • NIST 800-53 / 800-171 • SSP & POA&M Development • STIGs & SCAP • Vulnerability Assessment • Security Policy & Procedures • ATO Management

## PROFESSIONAL EXPERIENCE

---

### Information Systems Security Manager (ISSM) | [Loft Federal](#) | Golden, CO Feb 2025 – Present

- Lead all cybersecurity compliance and IT security operations for a government-facing defense startup, developing and maintaining SSPs, POA&Ms, and security policies aligned to CMMC Level 2 and NIST 800-171.
- Author government cybersecurity proposals and advise leadership on NIST frameworks, change management, and organizational risk posture.
- Spearheaded implementation of a security awareness program and organization-wide asset security baseline from the ground up.

### Sr. Information Systems Security Analyst / Engineer | [York Space Systems](#) | Oct 2023 – Feb 2025

- Served as primary cybersecurity engineer for classified boundary systems, owning the full RMF lifecycle from initial assessment through ATO and post-authorization continuous monitoring.
- Applied and maintained current STIGs across system components, reducing configuration vulnerabilities and ensuring ongoing compliance with DoD cybersecurity standards.
- Conducted technical security assessments to identify vulnerabilities and non-compliance issues, providing prioritized mitigation recommendations that maintained operational security posture.

### Cyber Information Systems Security Analyst (ISSO II) | [Northrop Grumman](#) | Dec 2022 – Oct 2023

- Maintained uninterrupted ATOs across multiple classified networks by completing all RMF Body of Evidence documentation including SSPs, SOPs, ConMon reports, and POA&Ms.
- Performed network and system assessments to identify deviations from acceptable configurations and enclave policy, recommending and tracking corrective actions to closure.
- Managed configuration management (CM) for security-relevant IS software, hardware, and firmware, ensuring all changes were documented and aligned to approved baselines.

### Information Systems Security Officer I (ISSO) | [Parsons](#) | Mar 2022 – Dec 2022

- Executed weekly security audits and monthly/quarterly/annual ConMon activities across multiple client systems, reporting all anomalies to the ISSM and maintaining full A&A compliance.
- Ensured proper access controls for both logical system access and physical access to data processing facilities in accordance with A&A documentation.
- Assisted ISSM/A-ISSM in reviewing and updating IA SOPs and RMF artifacts, contributing to a consistently audit-ready security posture.

### Explosive Detection Canine Handler / Area Supervisor | [MSA Security](#) | 2018 – 2022

- Maintained strict regulatory compliance and performed coaching, testing, and certification in high-stress operational environments. Promoted internally; served as principal liaison with law enforcement and security stakeholders.

### **Master-at-Arms 3rd Class (Military Police) | U.S. Navy | 2012 – 2016**

- Hand-selected for 4 U.S. Secret Service missions supporting the President and Vice President of the United States. Delivered dignitary security for former First Lady Laura Bush and supported operations during a visit by former Mexican President Vicente Fox.
- Recognized for superior performance; developed instructional materials as a Law Enforcement Trainer that enhanced training efficiency and knowledge retention.

## **EDUCATION**

---

### **Bachelor of Applied Science – Cybersecurity / Information Assurance**

*Expected August 2026*

Western Governors University

### **Associate of Applied Science – Computer Information Systems**

*2020*

Community College of Denver

## **CERTIFICATIONS & CLEARANCE**

---

- CISSP – Certified Information Systems Security Professional (DoD 8570 IAT/IAM Level III)
- CompTIA Secure Infrastructure Specialist: A+, Network+, Security+ CE
- CompTIA CySA+ – Certified Cybersecurity Analyst
- AWS Certified Cloud Practitioner
- LPI Linux Essentials
- Active Security Clearance: TS/SCI
